

Vegetation Management Quarterly Update: Q2

Quarterly Update Summary

In Q2, the Vegetation Management program has been working in the area north of the airport in Big Bear City. (See Grids G-11 and G-12). Vegetation crews have also completed trimming along Highway 18 from the dam all the way through Boulder Bay. Caltrans highway trimming will continue in Q3 in Big Bear City along the 38 from Division all the way to Shore Drive.

There has been a significant rise in dying trees and we currently have multiple crews on tree removals daily. With summer just beginning this trend of dying trees will most likely continue for the coming months.
