

DATA REQUEST RESPONSE
Bear Valley Electric Service, Inc.
2022 Wildfire Mitigation Plan

Response provided by: Paul Marconi
Title: President, Treasurer & Secretary
Data Request Number: OEIS-BVES-22-001
Date Received: May 11, 2022
Date Due: May 16, 2022
Date Provided: May 16, 2022

Q01. Expenditure, Non-Spatial Data Table 12

- a. According to BVES's Table 12, BVES spent a total of \$3.58 billion in 2020. Energy Safety suggests there may be an error in the Table, specifically cell AA27 and AB27 in which BVES reports expenditure for 2020 related to fuse replacements. Confirm the accuracy of Table 12 in regards to expenditure in 2020 and correct any errors that may exist.

Response

The values in cells AA27 and AB27 in the QDR were not divided by 1,000 and, therefore, produced the error. BVES corrected these two cells by dividing by 1,000.

In addition, BVES reviewed all the cells in Table 12 and made corrections in the following cell number:

- AA16
- AB16
- AH16
- AI16
- AV107
- AW107
