Telephone (909) 866-4678

Engineering: Ext. #142

Service Connection & Scheduling: Ext. #161

## Recommended Installation - Temporary Overhead Service

- A.) All temporary poles are to be installed by the customer or their contractor. **NOTE: A Preliminary Service Request is required on all new service connections.**
- B.) BVES will charge a \$75.00 fee for a temporary hook-up. BVES will furnish and install the meter, point of attachment, and up to 100' of service drop. Any service drop over 100' may incur additional charges (to be determined by BVES Engineering Department).
- C.) Permits and inspections must be obtained from the following agencies, depending on service location :  
City of Big Bear Lake  
 39707 Big Bear Blvd  
 Big Bear Lake, CA 92315  
 (909) 866-5831  
 or: County of San Bernardino  
 477 Summit Blvd  
 Big Bear Lake, CA 92315  
 (909) 866-0170  
  
 It is the customer's responsibility to notify or supply BVES with a "Green-Tag" or "Inspection Notification" before service can be connected. Time frames for all new connections are contingent upon current work loads.
- D.) Minimum service cable clearance above ground:  
 At center of street.....18'  
 At curb line.....16'  
Special conditions: Consult an Engineering Department Representative.
- E.) All facilities must be rain-tight and bonded. Wire with suitable insulation, not less than #4 copper, shall be used in the 2" conduit.
- F.) The recommended installation exceeds the minimum NEC requirements. NEC minimums are also acceptable.
- G.) For any service larger than 100 amps, consult Engineering Department Representative.
- H.) Poles will be installed 10' to 100' from existing BVES facilities. For any service drop over 100' contact the Engineering Department in regards to bracing requirements.
- I.) Floodlights, signs, ropes, and other similar equipment, shall not be attached to service or the temporary pole.
